ATTN: Solid Waste or Recycling Companies
RE: CY2023 Recycling and Refuse Report

Section 22-169(b) of the Prince William County Code requires all companies that manage solid waste or recyclable materials within the County's limits to annually report their recycling activities to the Department of Public Works, Solid Waste Division for the previous calendar year.

Please complete and return the report for Calendar Year 2023 by February 15, 2024. All forms must be completed in Adobe PDF and submitted via the Submit button at the end of the form. Additional forms are available on the County's website at: <https://www.pwcva.gov/businessrecycling>.

The structure of this year's form is similar to the one used last year. Section A includes contact information; Section B is for recycling collection activity; Section C is for other materials recycled or reused; Section D is for construction and demolition waste; and Section E is for solid waste. Include in this report only those materials managed in **Prince William County, including the incorporated towns of Dumfries, Haymarket, Occoquan, and Quantico**. Do not include materials managed within the independent cities of Manassas or Manassas Park; report activities directly to these localities. A list of County ZIP codes for which data should be reported appears on page 2.

All information reported should be based on actual weights whenever possible. Estimates are acceptable if the volume-to-weight conversions provided in Attachment 1 on page 7 are used.

How and Where to Submit Completed Forms: return the report via PDF submission no later than February 15, 2024. After you complete all entries, click the Validate button at the bottom of the form to ensure all required fields are complete. Once validation passes, click the Submit button to send the form to pwcrecycles@pwcgov.org.

If you have any questions regarding this report, please contact the Solid Waste Division at (703) 792-4670.

Thank you for your cooperation,
Solid Waste Division
