STAFF TIME

Sherry Bowman, Community Support Division Manager: Ms. Bowman shared that the PWC Office of Housing opened a one-day voucher for housing again this year. Lynn Fritts, CS's homeless services coordinator, put together and sent out needed information and staff immediately jumped into action to identify who might need housing. Staff submitted over 185 applications yesterday, which included 2 individuals by phone from a homeless camp that were connected to us by a former PATH (Projects for Assistance in Transition from Homelessness) client.

Sara Wheeler, Youth, Adult, and Family Division Manager: Ms. Wheeler shared that in March we distributed 255 boxes of naloxone, which is the most ever, and nearly equal to an average year of distribution.

the Prince William County Community Services Board honors

Debra Negvesky

With great respect and sincere appreciation for your more than 17 years of outstanding service to Prince William County Community Services in the Supported Living Services Program.

After 16 years working for various departments within Prince William County, you joined Community Services in July 2005 to provide administrative support for the SLS and PACT programs. Your position has developed and expanded through the years, and you have always risen to the occasion, providing creative solutions and whatever was needed to support the staff, clients, and properties of CS.

You were awarded Employee of the Month in 2012 and have participated on numerous committees over the years including CS's SOS committee for the past 8 years and the County Employee Advisory Committee for the past 3.5 years.

Your contributions to Community Services have been invaluable. Your expertise and dedication allowed the Townhouse Program to thrive as you managed and maintained the County owned and leased Townhouse properties. Over the years you helped to obtain innovative funding sources for upkeep and improvements to the homes, including several CDBG grants, and money awarded through the Public Works' Capital Improvement Plan. Your knowledge of purchasing and vendors and your ability to manage large funding projects ensured these endeavors were successful and the houses were places our clients could proudly call home while receiving CS services.

Your commitment and work ethic were apparent in everything you did, making sure things were taken care of day and night. You never hesitated to help others across the agency, assisting with community partners, vendors, supplies, vehicles, and any other administrative function that was needed to support staff in doing their work. Your compassion for and ability to connect with the individuals we serve, both in the office and in the community, exemplifies customer service standards. Your years of service and countless contributions to Community Services have made a lasting positive impact and for that we sincerely thank you.

In 2002, you were promoted to the Administrative Services Supervisor position. In 2007, your position was upgraded to an Administrative Support Coordinator II, which ultimately became an Administrative Support Coordinator position in 2018. Your dedication, flexibility and ingenuity have been hallmarks of your career. Community Services has changed immensely during your tenure, but your commitment and creativity has not wavered in always putting Community Services' clients first.

Your career with Community Services has been exemplary, defined by professionalism, good leadership and management, collaboration, and the support required to move CS toward a high-performing organization. You have been a driving force behind many of the agency's support

Policy and Procedure Manual Updates – Mike Goodrich, Administrative Services Division Manager

Mr. Goodrich shared that the 10-person committee consisting of two board members, Dr. Carr and Mr. Rath, a county attorney, and 7 staff members, reviewed the Code of Ethical Behavior. The policy ensures that we maintain a therapeutic relationship, hold our staff accountable to standards, and that public trust is paramount. It also addresses bullying and sexual harassment and outlines financial arrangements that cannot be present between a client and staff. The Board expressed that it very thorough, they liked the clarity, and were glad to see social media is addressed.

PRESENTATION: Assertive Community Treatment (ACT), Program, Jacquelyn Brannock

Ms. Brannock shared that ACT was developed in the early 1970's as a response to the closing down of psychiatric hospitals. Services are offered to clients outside the clinic, hospital, or office setting and are aimed at individuals who are best served in the community. Services are provided by a multi-disciplinary team of 14 staff and mental health professionals. Ms. Brannock reviewed the required activities which is an array of comprehensive services. The current number of individuals served is 60. Of that, 17 are women, and 43 are men. Of the 60, 17 are served in the West of the county and 43 are served in the East. The average age is 45 years old, and the racial diversity includes Black, White, Hispanic, and Asian. Ms. Brannock shared three individuals' success stories.

Ms. Brannock discussed the program's vision for the future. They are aiming for 80+ client enrollment, with an average of 2-4 a month. They hope to expand the program by creating a team based in the West in order to provide more targeted, high-fidelity services while eliminating cross-county travel. The team recently submitted for a Federal SAMHSA Grant to allow for expansion.
