March 11, 2022

### The Prince William Health District What You Should Know

#### TSA To Keep Mask Directive Into April

- **[Mask Use on Public Transportation](#)** - After recommendation from the CDC, the Transportation Security Administration (TSA) is extending the security directive for mask use on public transportation and transportation hubs for one month, **through April 18**. During the extension, CDC will work with government agencies to help inform a revised policy framework for when, and under what circumstances, masks should be required in the public transportation corridor. This revised framework will be based on COVID-19 community levels, risk of new variants, national data, and the latest science. Any updates will be communicated publicly if and/or when they change. The security directive was set to expire on March 18.

#### Prince William Health Department will discontinue CTC+ Testing Services

***All other testing events will continue***

Prince William Health District (PWHD) will discontinue the Community CTC+, the vendor operated van established for COVID-19 testing. The initiative will end this Saturday March 12, 2022 due to a decrease in requests for testing from the community. The other testing events and services provided by the Prince William Health District and community partners will continue. Residents can schedule an appointment or find testing by visiting the scheduling [website](#), visit the PWHD website <https://www.vdh.virginia.gov/prince-william/3293-2/> or call 1-877-VAX-IN-VA ((877-829-

4682, TTY users call 7-1-1), Monday through Friday from 8 a.m. to 6 p.m. Assistance is available in English, Spanish, and more than 100 other languages.

Testing: [Curative](#) is still available in the PWHD Jurisdiction of Manassas, and Manassas Park. Curative kiosks are located in Alexandria, Arlington, and in the DC area. Visit the Virginia Department of Health [testing locator](#).

In addition you can find Vaccine availability by searching on [vaccines.gov](#) this website will show locations at CVS, Walgreens, and private provider availability.
